JUMEIRAH PARK

“Travelling – it leaves you speechless, then turns you into a storyteller.”

Ibn Battuta

We're pleased to share the menu of international trips available to DBSJP Secondary students for the 2026-27 academic year.

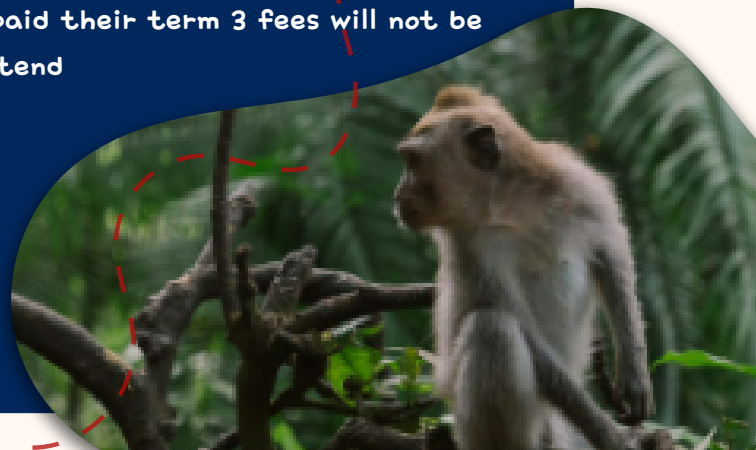

These experiences have been carefully planned to offer our students more than just a chance to travel, they're designed to challenge, inspire, and help young people grow into confident, curious and compassionate global citizens.

Each trip offers something different from subject-linked exploration to cultural immersion and opportunities to give back through meaningful community engagement. Together, they form a key part of our wider enrichment offer, helping students build real-world connections to their learning and develop independence, resilience and a broader perspective on the world.

All trips listed are optional, and we understand that families will make the decision that's right for them. While these experiences add significant value, no curriculum content will be missed for students who do not take part. Details for each trip including who to contact for more information are included in the attached document.

Local residentials and UAE-based subject-specific trips are not included here; these will be shared in the new academic year. These trips are part of what makes school memorable. They shape friendships, broaden horizons, and leave students with stories and experiences they'll carry with them for life.

Please note that students who have not paid their term 3 fees will not be eligible to attend

RESIDENTIAL TRIPS
